RE: ML 48636-MP, Notice of Intent  
DOGM # S/015/083

Dear Mr. Powell,

Thank you for your June 18, 2001, notice of intent to commence small-mine operations upon the lands within ML 48636-MP. As you requested I will initiate action to transfer C.D. bond coverage from ML 48109-MP to ML 48636-MP. I will also the transfer the cultural resources clearance received for this project to the new SITLA permit number.

I note that you were granted DOGM mining permit #S/015/083 for the lands under ML 48109-MP. It is necessary that you amend your mining permit with DOGM to reflect the new SITLA permit number, ML 48636-MP, in order to avoid confusion in the files. Please provide me with evidence that you have taken this measure.

Sincerely,

John T. Blake  
Mineral Resources Specialist
